

SC21 Supply Chain Improvement Programme

TPT are SC21 Strategic Partners, this means:

- Conduct business in line with SC21 principles in particular the relationship code of practice.
- Deliver an awareness level presentation of SC21 including a benefit statement ("what is it for me?").
- Facilitate a board level discussion on whether SC21 is right for the organisation
- Undertake diagnostic using SC21 principles to produce a specific business plan with clear areas for improvement (AFI).
- Facilitate feedback of the AFI's to the organisations leadership team to gain buy in
- Be able to deliver an understanding level training to the relevant organisation's personnel who will be actively engaged in the programme.
- Identify and refer AFI which may require specialist training partners to help.
- Establish baseline metric to measure current maturity, rating and monitor future progress.

We are approved as:

- Bus Ex Diagnostic – Lead Practitioners
- Man Ex Diagnostic– Lead Practitioners

We are approved to deliver the following:

- Accreditation and Quality Improvement – AS9100/AS9110/AS9120
